Mat, passenger compartment floor, rubber bowl-shaped

Op. No.: 85532

A fully covering natural rubber floor mat with generously raised edges all round. The mat protects the interior of the car against dirt and water.

The material is durable and has a diagonal grid pattern with soft edges and radii. The driver's mat has a comfortable textile foot plate which protects shoes from wear marks.

The colour and shape of the mat are designed to integrate well with the rest of the car's interior.

The mat is easy to position and lies flat against the floor. It is secured by integrated clips through leak proof mounting holes. The mat can be easily removed from the car for cleaning and can be rinsed with water.

(set of four mats)
