

## Vehicle information

2013/Volvo/XC60

VIN: YV4902DZ0D2447253

Diagnostics time: 2025/12/29 14:23

Path: Automatic selection > Diagnosis > Auto scan > Read codes >

## Trouble codes list (4)

- |            |                                                                                                                                |
|------------|--------------------------------------------------------------------------------------------------------------------------------|
| 1. B1B6916 | 12V supply circuit, General electrical faults, Circuit voltage below threshold<br>Intermittent Fault                           |
| 2. U010000 | Lost communication with ECM, General fault information, No sub-type information<br>Intermittent Fault                          |
| 3. U042268 | Invalid data received from Central Electronic Module (CEM), Algorithm based faults,<br>Event information<br>Intermittent Fault |
| 4. U210000 | Control module unconfigured, General fault information, No sub-type information<br>Intermittent Fault                          |
